The limestone karst and scrub alternate with fertile fields in the interior and pine woods on the heights. Villages scattered along the coast and in the interior of Brac Island are like stone monuments, guarding the rich heritage of the past centuries. Brac Island has had many rulers during its history, but its spirit remains unchanged and is best expressed in its most enduring product – the famous Brac stone. Some of that spirit has been incorporated into historical buildings, such as Diocletian's Palace in Split, and more modern edifices, such as The White House in Washington!
